1942 - the third year of the Second World War. Most European nations have been conquered by the Nazis. On the wide expanses of the eastern front, in Russia, the Red Army is putting up a violent resistance against Nazi invaders.

First Squad is an animated action-fantasy saga set in Russia during the World War II. It is the story of five teenagers who are part of a special military intelligence unit.

First Squad is partially based on historic figures and events of the early 1940s. The visual concept combines the unique aesthetics of soviet art and architecture of the early 20th century with Japanese animation - style imagery.
